Professional Experience

Program Manager and MA Clean Cities & Communities Director

Aug 2024 - Present

Massachusetts Clean Energy Center

- Developed memos and presentations for senior staff at MassCEC and other state agencies highlighting key program impact areas and progress status
- Manage two consultant teams implementing complimentary programs (\$13 million) focused on decarbonising the rideshare sector through EV adoption and access to fast EV charging stations
- Launched four equity focused grants awarded to private firms, government agencies and non-profit entities to deploy EV charging station in EJ communities (\$4 million)
- Onboarded a program coordinator across four projects, transitioning day-to-day project ownership in phases while continuing to provide oversight and troubleshooting support
- Supervise a project coordinator; hold structured twice-weekly check-ins with shared agendas to track progress and identify areas where additional support may be needed
- Coordinate with internal teams including Legal, Government Affairs and Marketing and Communications to navigate sensitive political dynamics
- Led program redesign and scope negotiations with consultant to revamp an underperforming program; increasing focus on the applicant experience and restructuring data reporting to enable faster, more actionable program insights
- Review deliverables and invoicing across six concurrent programs, providing detailed feedback to ensure compliance with contractual requirements and program goals
- Managed consultant procurement by reviewing, evaluating, and scoring RFP responses to support selection of an external consulting team
- Created the annual Program Management Plan for the MA Clean Cities Coalition using a SMART goals framework to align with coalition milestones and priorities
- Currently leading the transition of the MA Clean Cities work from DOER to MassCEC

Transportation Planner

Jan 2023 - July 2024

City of Boston

- Designed, deployed and managed a program for employees to use e-cargo bikes resulting in 659-miles ridden by fifteen unique users across four city departments in the first eight months
- Authored a new city e-cargo bike program policy and user guide for employees
- Analyzed car-share and bikeshare data to evaluate the city's mobility hubs pilot program and compiled findings into a report with recommendations for future expansion efforts

Reporter

May 2022 - Jan 2023

StreetsblogMASS, non-profit advocacy newsroom

- Authored sixty-four articles focused on biking infrastructure, walkability, transit access and climate change efforts taking place across Massachusetts
- Translated twelve articles to grow the newsroom's Spanish catalog

- Interviewed public officials and local advocates on an array of advocacy campaigns and infrastructure projects
- Attended and reported on public meetings across the Boston metro region

Spatial Justice Fellow

June 2021 - Aug 2021

Congress for the New Urbanism

- Designed research methodology to analyse the connection between perceived safety among different groups of bus riders and the presence of bus stop amenities
- Analyzed and visualized public datasets to create a [Storymap](#) and [interactive map](#) - featured in the 2022 State of Transportation Planning Report by the American Planning Association's Transportation Division

Transportation Intern

Oct 2020 - May 2021

Institute for Transportation Development Policy

- Built and maintained a [centralized map inventory](#) of MBTA bus lane projects and tracked their construction progress in order to identify service gaps across the Boston metro region

Project Coordinator

Aug 2018 - Mar 2019

Trio Electric - Electrical design and construction firm

- Coordinated and scheduled appropriate electrical inspections between city inspectors, foremen and project managers across various construction sites
- Tracked updates to engineered electrical, mechanical and plumbing drawings from subcontractors for new-build apartment complexes
- Conducted weekly bilingual onboarding trainings for new apprentices

Project and Outreach Coordinator

Aug 2016 - Aug 2017

AmeriCorps VISTA | Austin Public Works Department

- Organized and led meetings with neighborhood leaders to discuss project feasibility
- Coordinated across municipal departments to obtain necessary approvals and permits for neighborhood grant projects
- Assisted sixteen applicants in completing each part of their grant applications
- Prepared eleven application summaries detailing project budget, scope and alignment with municipal sustainability goals

Education

Master of Science in Urban Informatics | Transportation Focus

Aug 2021

Northeastern University, Boston, MA

Bachelor of Science in Fisheries and Aquatic Biology | Minor in Sustainability

Aug 2016

Murray State University, Murray, KY

Certifications

Smart Grid and Sustainable Communities Professional Development Certificate

June 2026

Portland State University

Group paper: [Yoga for the Grid-Flexible Interconnection for Utility Scale & Distributed Generation](#)

My focus: Technologies and Tools to Manage Congestion

Python Foundation for Spatial Analysis Certificate

April 2026

Spatial Thoughts

Used APIs and Python to access, analyze and visualize public datasets ([interactive map](#))

Data Analysis and Visualization Professional Certificate Program

April 2019

University of Texas at Austin
