Professional Experience

Program Manager

Aug 2024 - Present

Massachusetts Clean Energy Center

- Communicate key program updates to leadership at MassCEC and other state agencies through memos and presentations
- Manage a \$7 million federally funded consultant contract to deploy EV chargers across the Commonwealth to support the transition of rideshare and taxi drivers to EVs
- Manage a \$6 million consultant contract to disburse rebates to Uber, Lyft, taxi drivers and livery businesses to promote shift from gas vehicles to EVs
- Launched four equity focused EV charging station grants awarded to a mix of private sector, government agencies and non-profit entities (\$4 million)
- Onboarded a program administrator across four projects, transitioning day-to-day project ownership in phases while continuing to provide oversight and troubleshooting support
- Supervise a project coordinator; hold structured twice-weekly check-ins with shared agendas to track progress and identify areas where additional support may be needed
- Facilitate connections between project partners to identify opportunities for collaboration
- Led contract and scope negotiations with consultant to revamp an underperforming program, strengthening accountability requirements for website maintenance and redesigning data collection to enable faster, more actionable program insights
- Review deliverables and invoicing across six concurrent programs, providing detailed feedback to ensure consistency with contractual requirements and program goals
- Managed consultant procurement by reviewing, evaluating, and scoring RFP responses to support selection of an external consulting team
- Oversaw and executed nearly 10 contract amendments to reflect budget adjustments and shifts in project scope and priorities

New Mobility Planner

Jan 2023 - July 2024

City of Boston Transportation Department

- Deployed and managed an e-cargo bike program for employees resulting in 659-miles ridden by fifteen unique users across four city departments in the first eight months
- Authored a new city e-cargo bike program policy and user guide for employees
- Analyzed car-share and bikeshare data to evaluate the city's mobility hubs pilot program and compiled findings into a report with recommendations for future expansion efforts

Reporter

May 2022 - Jan 2023

StreetsblogMASS, non-profit advocacy newsroom

- Authored sixty-four articles focused on biking infrastructure, walkability, transit access and climate change efforts taking place across Massachusetts
- Translated twelve articles to grow the newsroom's Spanish catalog
- Interviewed public officials and local advocates on an array of advocacy campaigns and

infrastructure projects

- Attended and reported on public meetings across the Boston metro region

Spatial Justice Fellow

June 2021 - Aug 2021

Congress for the New Urbanism

- Designed and conducted research project focused on bus stop amenities and perceived safety through a gender lens along MBTA's bus route 1 ([Storymap](#) and [interactive map](#))
- This work was featured in the 2022 State of Transportation Planning Report by the American Planning Association's Transportation Division

Boston Program Intern

Oct 2020 - May 2021

Institute for Transportation Development Policy

- Built and maintained a [centralized inventory](#) of MBTA bus lane projects and tracked their construction progress in order to identify service gaps across the Boston metro region

Project Coordinator

Aug 2018 - Mar 2019

Trio Electric - electrical design, construction, and service firm

- Communicated between City staff, foremen and project managers to ensure timely and appropriate site inspections
- Tracked updates to engineered electrical, mechanical and plumbing drawings from various subcontractors across multi-unit apartment sites
- Scheduled municipal electrical permits for various construction projects
- Conducted weekly bilingual onboarding trainings for new apprentices

Project and Outreach Coordinator

Aug 2016 - Aug 2017

AmeriCorps VISTA | Austin Public Works Department

- Coordinated and led meetings with neighborhood leaders to discuss their project ideas
- Corresponded with various City of Austin departments to ensure project feasibility
- Assisted sixteen applicants in completing each part of their grant applications
- Prepared eleven application summaries for our board of directors
- Reviewed cost estimates for project budgets ranging between \$90-\$350K
- Responded to stakeholder concerns via phone, email and at neighborhood meetings

Education

Master of Science in Urban Informatics | Transportation Focus

Aug 2021

Northeastern University, Boston, MA

Bachelor of Science in Fisheries and Aquatic Biology | Minor in Sustainability

Aug 2016

Murray State University, Murray, KY

Certifications

Data Analysis and Visualization Professional Certificate Program

April 2019

University of Texas at Austin, Austin, TX

Python Foundation for Spatial Analysis

April 2026
